

# Fruit Salad

Unit: Food Cutter Machine

- 1 - Small Bag of Marshmallows (optional)
- 1 - 4 Ounce Bag of Chopped Pecans (optional)
- 2 - 3 Medium Ripe Bananas sliced on #5 Blade
- 1 - Medium Cantaloupe chopped on #2 Blade
- 2 - 3 Large Apples Chopped on #3 Blade
- 3 - 4 Oranges cubed with a knife

First peel the oranges and cut into cubes with a sharp knife. Next, slice the cantaloupe into 2 inch wedges and remove the seeds. Once that is done, remove the safety guard from the food cutter machine and set the melon on top of the machine with the #2 Blade and crank holding the peeling. The machine will shred the melon and remove the peeling!

Peel the bananas and feed them through the machine on the #5 blade. Finally, quarter the apples, remove the core with a knife and chop on the cutter machine with the guard on. Face the peeling toward the blade and it will cut the peeling in. Add remaining desired ingredients and serve!
