

Stove Top Pound Cake

Unit: Small Skillet

1 - Betty Crocker pound cake mix

Eggs and water

1 - Package of fresh Strawberries

Follow instructions on package except skip the butter and oil. Mix the ingredients together in a bowl. Turn the skillet on medium heat for 5 minutes.

Spray the unit with cooking spray. If the spray smokes a lot, fan the skillet for 2-3 minutes and then wipe out the pan with paper towel and respray. Pour in cake mix and cook on medium- low heat for 15 minutes or until cake is dry on top. Flip out onto a plate and sprinkle with powdered sugar. Serve with strawberries!

**** If the top of the cake doesn't want to get done, dry the inside of the lid with a paper towel and cook for 5 more minutes.**
